

Allianz Risk Barometer Results appendix 2023

Based on the insight of 2,712 risk management experts from
94 countries and territories

- 2 The most important business risks: global
- 4 The most important business risks: Europe, Americas, Asia Pacific, and Africa and Middle East
- 36 The most important business risks: industry sector
- 44 The most important business risks: company size

The most
important
business risks
in 2023:
global

The most important business risks in 2023: global

Ranking changes are determined by positions year-on-year, ahead of percentages.

Rank		Percent	2022 rank	Trend
1	Cyber incidents (e.g. cyber crime, malware/ransomware causing system downtime, data breaches, fines and penalties) ¹	34%	1 (44%)	→
2	Business interruption (incl. supply chain disruption)	34%	2 (42%)	→
3	Macroeconomic developments (e.g. inflation, deflation, monetary policies, austerity programs)	25%	10 (11%)	↑
4	Energy crisis (e.g. supply shortage/outage, price fluctuations)	22%	NEW	↑
5	Changes in legislation and regulation (e.g. trade wars and tariffs, economic sanctions, protectionism, Euro-zone disintegration) ²	19%	5 (19%)	→
6	Natural catastrophes (e.g. storm, flood, earthquake, wildfire, extreme weather events)	19%	3 (25%)	↓
7	Climate change (e.g. physical, operational and financial risks as a result of global warming)	17%	6 (17%)	↓
8	Shortage of skilled workforce ³	14%	9 (13%)	↑
9	Fire, explosion	14%	7 (17%)	↓
10	Political risks and violence (e.g. political instability, war, terrorism, civil commotion, strikes, riots, looting)	13%	13 (9%)	↑
11	Market developments (e.g. intensified competition/new entrants, M&A, market stagnation, market fluctuation)	11%	8 (15%)	↓
12	Critical infrastructure blackouts (e.g. power disruption) or failures (e.g. aging dams, bridges, rail tracks)	9%	14 (9%)	↑
13	Pandemic outbreak (e.g. health and workforce issues, restrictions on movement)	7%	4 (22%)	↓
14	New technologies (e.g. risk impact of artificial intelligence, connected/autonomous vehicles, electric vehicles, nanotechnology, blockchain, 5G) ⁴	6%	12 (9%)	↓
15	Theft, fraud, corruption	6%	16 (5%)	↑
16	Loss of reputation or brand value (e.g. public criticism)	5%	11 (10%)	↓
17	Insolvency ⁵	4%	NEW	↑
18	Product recall, quality management, serial defects	4%	15 (6%)	↓
19	Environmental risks (e.g. pollution)	3%	17 (4%)	↓
	Other	2%		

Source: Allianz Global Corporate & Specialty

¹ Cyber incidents ranks higher than business interruption based on the actual number of responses

² Changes in legislation and regulation ranks higher than natural catastrophes based on the actual number of responses

³ Shortage of skilled workforce ranks higher than fire, explosion based on the actual number of responses

⁴ New technologies ranks higher than theft, fraud and corruption based on the actual number of responses

⁵ Insolvency ranks higher than product recall, quality management and serial defects based on the actual number of responses

Key

↑ Risk higher than in 2022

↓ Risk lower than in 2022

→ No change from 2022

(5%) 2022 risk ranking %

The 12th annual Allianz Risk Barometer survey was conducted among Allianz customers (businesses around the globe), brokers and industry trade organizations. It also surveyed risk consultants, underwriters, senior managers and claims experts in the corporate insurance segment of Allianz Global Corporate & Specialty and other Allianz entities.

Figures represent how often a risk was selected as a percentage of all survey responses from 2,712 respondents.

All respondents could select up to three risks per industry, which is why the figures do not add up to 100%.
